

ITABOX

BASIS FOR MATTRESSES

Quality and Reliability

Itabox is a company of the Grupo RB that operates in the production and sale of sawn wood, pallets, box beds and their accessories, from its own reforestation.

Itabox was born with a strategy aimed at offering to the market products of high quality and reliability, meeting the most rigorous production standards of supply.

The company is verticalized in all its processes, from planting to the industrialization of box beds.

Aiming to guarantee the sustainability of its business and respect for the environment, Itabox works only with its own wood from reforestation, duly certified.
